

# Conformance by Interval: Setup Guide

- 1 Create a report in IEX under “**Conformance by Interval**”
- 2 Follow the setting in this report shown the screenshot below.

**Note:** under “Open activities” section select use attributes as “Activity Code” and under “open Value” select the activity code of the ancillary team you’re supporting. E.g. for GLP1 (CRG – Chart Checker)

- 3 Save the report
- 4 Whenever you ran the report just update the date to the current date and trigger the Open activities section by clicking the “Use activity code definition” radio button and clicking back the “Use attribute” radio button so it won’t be grayed out.
- 5 Generate report

Once generated, download the file and upload it to our interval staffing tool.

## REPORT SETUP & AGENT SELECTION

The screenshot shows the 'Conformance By Interval' report setup interface. It includes fields for Name (Conformance GLP-1), Report type (CSV), and Reporting Groups and Agents. The Report by dropdown is set to Agent. The Agent data dropdown is set to Job Function 8, and the Value dropdown is set to Offshore. The Agents list shows a table of agent details. The Report Dates section has radio buttons for Absolute dates and Relative dates, with the Date field set to 1/26/20. The Report Parameters section has a Note field and an Include checkbox for Details by period.

| Agents                                  |
|-----------------------------------------|
| 900071455 Aballe, Mikaila               |
| 900103433 Adonis, Erik                  |
| 1091395 Alvarez, Jerome Paul            |
| 2258045 Adantao, Julius                 |
| 900008921 Adapo, Regene Marie           |
| 900006843 Adaranto, Mary Rose           |
| 2110299 Adella, Regie                   |
| 900009954 Adena, Maria Cherie Bernadeth |
| 900249930 Aldera, Sarah Jane            |
| 2251723 Adina, Louis Karl               |
